

YOU CAN'T GIVE YOUR CHILDREN SELF-CONFIDENCE

BUT – YOU CAN RAISE SELF-CONFIDENT KIDS

Children learn more quickly when success is a tangible, achievable goal. They respond with enthusiasm and pride when they are stimulated by victories.

Parents and teachers alike are searching for the essential tips and tools to help facilitate learning self-confidence in their students and **NICK AMBROSINO**, having spent 30 years in the field of education, is the learning specialist with the solutions to this pressing need. His educational tools are highly regarded by

parents and teachers across the country as the gold standard for student-centered motivation, accountability and self-esteem. His speeches and seminars ignite a fire in educators and parents searching for answers.

His two best-selling books, *Coffee with Ray – A Simple Story with a Life Changing Message for Teachers and Parents* and *Lessons with Matt – An Inspiring Story of Success Strategies for Teachers and Parents of Tweens and Teens*, are available on Amazon and Smashwords.

SPEAKING TOPICS

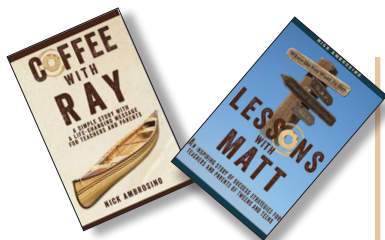

for Conferences, Assemblies, Workshops & Keynotes

The Triumph of Learning
How to motivate your student/child to move beyond the mediocre to the magnificent – reversing self-defeating mind sets in learning.

Removing Learning Road Blocks
This ONE simple concept will quickly turn the red lights of learning into green lights for success.

The Empowered Accountable Learner
Create skill sets for life-long learning success.

7 Essential Tips and Tools Needed By All Parents and Teachers
Accelerate student learning mastery, self-confidence and self-esteem.

“Nick’s insights are filled with intuition and metaphors that shed light on an approach to delivering information that is brain compatible with the nature of learning. Educators, parents, coaches, and instructors will gain a great deal from Nick Ambrosino.”

– **MICHAEL HEBRON**
PGA Hall of Fame

“It is rare for someone to strike the perfect balance between academic knowledge about learning and the real-world challenges associated with fostering learning in another. We are either exposed to ‘the experts’ telling us what we should do with very little understanding of what it takes to implement, or ‘the practitioners’ claiming to know what works without actually having the research to back it up. Nick appropriately conveys the importance of both the evidence and the experience in a very compelling way.”

– **JIM LAUCKHARDT, PhD**
Applied Behavioral Science

“If this information was available when I was teaching my Method courses as a Professor, I certainly would have placed it on the required reading list for education students in all disciplines. A must for all teachers.”

– **DR. BERT KONOWITZ**
Professor Emeritus, Teachers College, Columbia University
