*“This is one of the finest books on teaching that I have read in a very long time, if ever. Teaching our students to really learn ... through hard work, failures and successes – is what education is all about. True teaching is a gift and this book expresses that beautifully. ... I will be reading it again and again during my career.”*

*“I’m going to order Nick’s book and give a copy to each family on my studio! His ideas and philosophy should be mandatory reading for every parent, pre-school teacher, child care staff, coach, college professor and any one else in a teaching position! BUY it, read it and read it many more times and you will be blessed!”*
