

Nick -

I wanted to take a moment to thank you for speaking at our Parent Association Meeting at M.S. 245, Computer School in New York City.

The talk you facilitated on "Raising Confident Kids" was quite interesting and eye opening to all attendees. You have a great presence and were able to balance being entertaining and intelligent flawlessly. You kept all attendees interested and engaged throughout the discussion. It was great to hear your personal parenting experiences as well as general tips and ideas that parents could take home with them. Parents raved about the presentation afterwards.

Thank you so much. Your ideas and guidance are invaluable.

Sincerely,

Michelle Ciulla Lipkin  
President, Computer School Parent Association
